Reception

MARLENE de MELO

Date: February 7, 2017

Dear Client,

I have worked with Westland Construction Ltd. on many projects over the years, and I have no reservations in recommending them to future clients.

I have found Westland to be a progressive company that quickly find solutions to problems that ultimately arise during construction. Their on-site staff are very professional and knowledgeable. They work well with clients, consultants and sub-trades. They facilitate communication between all parties, and conduct their business with complete transparency. Whenever we needed to make a change or had a concern I found the Westland staff to be approachable, accommodating and fair.

Within this competitive industry, Westland Construction Ltd. delivers what they promise, on time and within the client's budget constraints. I would not hesitate to work with Peter Grose and his team again.

Sincerely,

Jamie Kozak
