Re: **Recommendation of Westland Construction's Performance**

On behalf of our firm, I would like to acknowledge the professional relationship we have Westland Construction Ltd., most recently during the renovation of 476 Provencher Blvd in Winnipeg.

Working with the project manager Craig Hildbrandt and site supervisor Gerry Poirier has been a positive experience. They proved themselves to be proactive and organized in dealing with their sub-trades. Their overall professionalism off and on site was outstanding and they were available to answer questions and address concerns efficiently. They maintained a clean jobsite, enforced the safety program and provided quality workmanship. Their attention to scheduling, cost tracking, and well-organized communication was a terrific asset in delivering a successful project.

I can confidently recommend Westland Construction Ltd as a solid and reliable project manager.

Yours truly,

Chris Wiebe

Principal, AtLRG Architecture Inc.
